Mandana Polymer

Liquid waterproofing membrane

(wp60)

Concrete, brick, and
cement block surfaces

Facades and walls

(wp20)

swimming pools

Various swimming pools, fountains, and
jacuzzis Water storage tanks
Water pipes

(wp10)

Roofs and balconies

metal roofs, including galvanized and ramps
Mosque domes
Roof gardens
Flower and plant boxes
Residential areas and spaces

(wp50)

Repairing bituminous insulation

Repair a Bitumen

(wp70)

Under tile

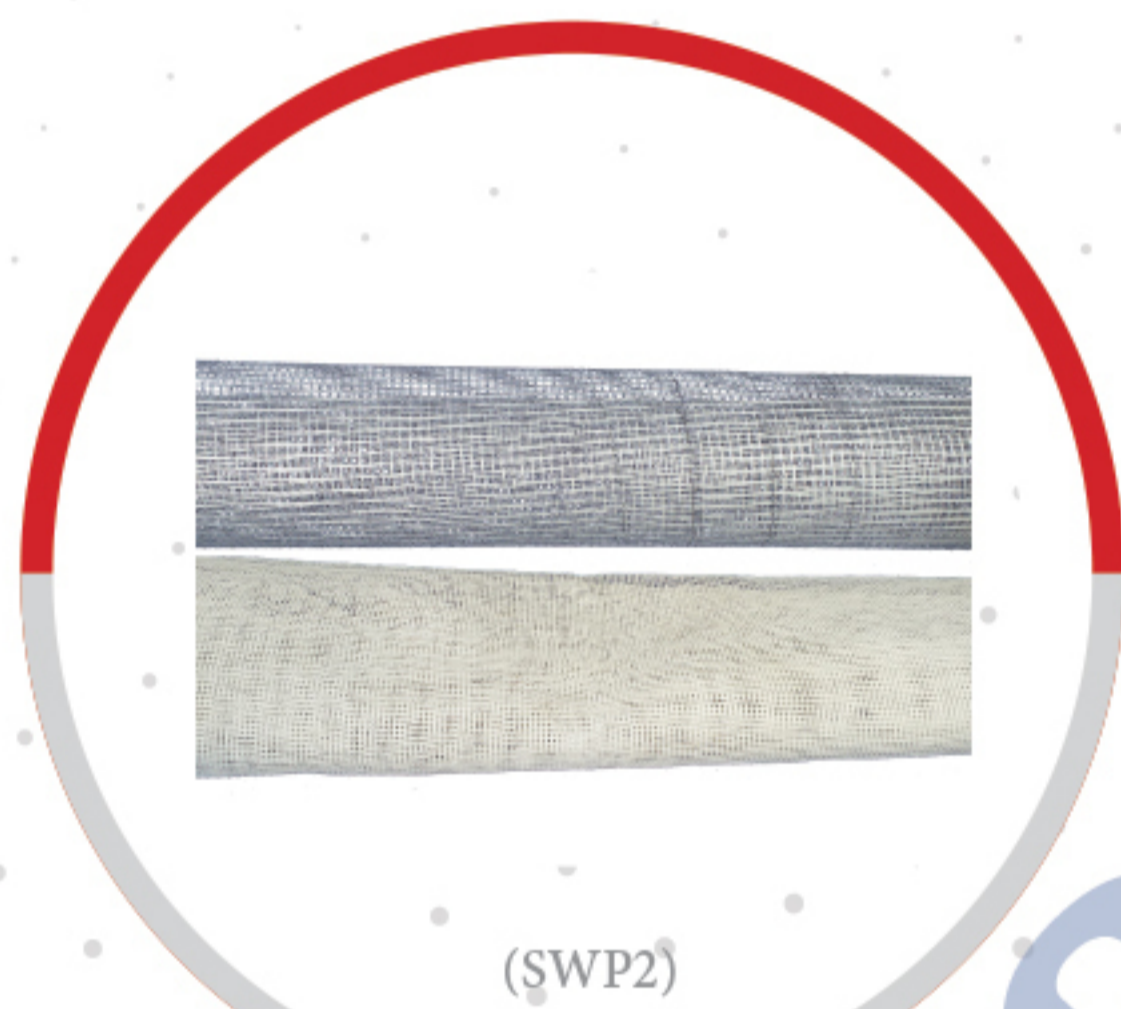

Beneath tiles

(wp40)

Galvanized iron bridges
Prefabricated metal components

Mosque domes
Flower and plant boxes
metal roofs, including galvanized and ramps

(SWP2)

Insulation mesh (SONTARA)

Increasing insulation resistance
against negative pressure

(wp30)

ACRYLIC WATER BASED PRIMER
(WP30)

improving the adhesion of waterproofing
membrane to the surface

(WP220),(WP210)

Waterproof and colourless surface gloss

- One-component & two-component polyurethane
- Insulating exterior surfaces of villas/stone/wood

(wp80)

Waterproof sealant
one-component wp80

- Filling small voids and smoothing the surface
- Sealing ceramic tiles
- Covering larger holes, seams, and deep gaps

(p40)

Waterproof sealant
two-component p40

Filling thin seams under 2 mm deep
Suitable for foundational use

about us...

Mandana Polymer, Ltd stands is a prominent manufacturer in Iran, specializing in the production of high-performance polymer-based products through advanced polymer chemistry. The company has successfully developed six distinct categories of polymer products, all of which have been recognized and listed as innovative and ground- breaking. These categories include:

- 1- Waterproofing coatings (liquid polymer membrane)
- 2- Epoxy and polyurethane flooring
- 3- Two-component epoxy-based adhesives
- 4- Industrial polymer composites (resin carpet)
- 5- Putty and polymer concrete
- 6- Waterless polymer- based detergents and cleansers

Standards & Evidences

Trophies

Inventions

Adhesives & Sealants

(EP61)

UNDERWATER REPAIR (EP61)

Can be applied and cured under water

(EP60)

GAPFILLER(EP60)

Stone, ceramic, Concrete and more Mounting tiles, ceramics, vanities and countertops

(EP64)

GENERAL USE (EP64)

Building materials, metals, planter rebar, anchor bolt, masonry, Connecting concrete to various materials / Installing stones, slabs, and ceramics Adding various reinforcements to concrete structures

(EP65)

METAL & CONCRETE (EP65)

Stone, Concrete, metal stone, slab, masonry Repairing cracked concrete

(EP62)

(EP62)

- mixing ratio 1:3
- Installing various bolts, anchors, and nuts in concrete structures vertically and horizontally

(EP63)

(EP63)

- mixing ratio 1:2
- Household applications
- Metal bonding
- Stone joining
- Concrete bonding
- Wood joining

Advanced resin products

(EP810)

ultra-clear decorative

- Home decor projects, such as epoxy resin tables, kitchen tops & countertops
- Epoxy resin art, paintings, crafts & jewellery

(EP701)

EP701 part making epoxy

creating parts, casting, and modelling industrial components & delicate models

(EP703)

Soft epoxy Resin (30%)

- Club and gym
- creating parts, casting & modelling pump

(EP702)

& Black Epoxy Encapsulating potting Compound (EP702)

- Shields sensitive electronic circuits from dust moisture & chemicals
- Encapsulate printed circuit assemblies & coating insulating metal surfaces

(OP43)

ASANSHOO: Polymer Detergent

- Washing/maintenance for cars and industrial machines, including composite and metal surfaces with various colours

KLAND: Polymer Detergent

Hand cleaner for industrial use, designed to remove oil & residue in repair shops, car factories & during oil changes.

(EP770)

epoxy primer EP770

Wood primer
Waterproofing surfaces

Epoxy polymer integrated flooring

(EF31)

Epoxy roller flooring (concrete cover)

- Waterproof
- Making concrete resistant to chemicals
- Suitable flooring for sheds and industrial warehouses (with light traffic)

(EF30)

Top Coat Epoxy- Self-Levelling (EF30)

- Self-smoothing system on concrete and cementitious screeds, with normal up to medium heavy wear e.g. clean rooms storage and assembly halls, maintenance

(EF20)

Middle Coat Epoxy (EF20)

- epoxy flooring applications

(EF10)

PRIMER EPOXY (EF10)

- Internal/external concrete
- Internal cement levelling screed
- Internal timber & chipboard floors (coatings)
- Tile, ceramic & stone

(EF41)

Shiny Epoxy (Akyl Based) EF41

- Decorative Epoxy Flooring

(EF35)

Epoxy roller flooring (concrete cover) EF35

- Waterproof
- Making concrete resistant to chemicals
- Suitable flooring for sheds & industrial warehouses (with light traffic)

(EF50)

Open space epoxy flooring (FarshResin) EF50

- Suitable for with area under pressure and vibration
- Pedestrian stairs and bridges
- Ramps and inclined surfaces
- Pool edge and slippery surfaces
- Suitable for open and closed space

(EF40)

Clear TOP COAT EF40

- protective sealer for concrete and other cementitious substrates
- Decorative Epoxy Flooring (3D)

Epoxy diluent

- Cleaner suitable for resin contamination
- If needed use to dilute epoxy resin

(OP41)

Scratch remover & shine maker

Scratch remover & shine maker

(OP40)

Surface cleaner

Surface cleaner & scratch remover

(OP30)

anti-grease foam washing solution

- Removes grease from stone and concrete surfaces
- Cleans all types of epoxy flooring
