

# Mandana Polymer Industrial Group

Manufacturer of Liquid waterproofing membrane Epoxy Adhesive, Epoxy Flooring part making epoxy & Polymer Detergent

ASANSHOO: Polymer Detergent  
KLAND: Polymer Detergent

## ASANSHOO: Polymer Detergent

ASANSHOO car cleaning products serve as a "three in one" solution: they safely remove dirt, offer extra protection, and polish surfaces. It is a car dry wash product for year-round use, a super absorbent biodegradable nanopolymer that can clean dirt and particles from metal surfaces without causing colour damage to the car/device. Its special non-spotting formula includes inorganic solvents that protect the device's colour. Using ASANSHOO polymer detergent doesn't require water. Due to its grease-repellent and water-resistant nature, it cleans and lasts much longer than other cleaners/detergents. In addition to cleaning devices, ASANSHOO can also be used as a wax and polish for car bodies

## KLAND: Polymer Detergent

KLAND cleaner & degreaser provides an incredible and budget-friendly solution for cleaning dirty hands. KLAND is available in gel and paste forms and effectively removes industrial compounds such as oil and grease from hands. Using KLAND doesn't require water. KLAND is made from natural ingredients, with a nice colour and scent. It stops the skin from drying out, cracking, soreness, dryness and irritation

PRODUCT	PROPERTIES	APPLICATIONS	END USERS
ASANSHOO	<ul style="list-style-type: none"> <li>● Safe for the environment, your device/vehicle, and you, as they don't contain detergents, acids, alkalis, or any harmful components</li> <li>● Eliminates the adverse effects of traditional car washing methods.
